The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, CA 90012

Dear Supervisors:

**APPROVE AGREEMENT BETWEEN MONROVIA NURSERY COMPANY, AZUSA LAND PARTNERS, AND THE CONSOLIDATED FIRE PROTECTION DISTRICT OF LOS ANGELES COUNTY REGARDING FIRE SAFETY MITIGATION
- VESTING TENTATIVE TRACT MAP (VTTM) NO. 54057 IN THE CITY OF AZUSA
(1st DISTRICT) (3 VOTES)**

RECOMMENDATION THAT YOUR BOARD, ACTING AS THE GOVERNING BODY OF THE CONSOLIDATED FIRE PROTECTION DISTRICT OF LOS ANGELES COUNTY:

1. Approve and instruct the Mayor of the Board to sign the Agreement Regarding Fire Safety Mitigation (Mitigation Agreement), to be effective upon Board approval, in which Azusa Land Partners, LLC, will construct a 6,000 square foot replacement fire station on a .79 acre parcel in the City of Azusa located outside the Sierra Madre Fault setback zone and convey the parcel and all improvements on it (Replacement Fire Station 97) to the Consolidated Fire Protection District of Los Angeles County (Fire District), and within 60 days of the conveyance of Replacement Fire Station 97 to the Fire District, the Fire District will convey ownership of existing Fire Station 97 (Existing Fire Station 97) to Monrovia Nursery Company.
2. Authorize the Chief Administrative Office to execute any required documentation necessary to complete the transfer of title to the Fire District and to accept the deed conveying title to Replacement Fire Station 97, and to execute any required documentation necessary to convey ownership of Existing Fire Station 97 to Monrovia Nursery Company after Replacement Fire Station 97 is accepted and operational by the Fire District.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Approval of the recommended actions will fulfill mitigation measures and requirements imposed by the City of Azusa, relating to impacts on fire protection services, as part of the City's conditions for approving the Monrovia Nursery Specific Plan, the Monrovia Nursery Development Agreement, VTTM No. 54057, and related California Environmental Impact Report for Monrovia Nursery Project (Project). This Project will be developed as 1,250 dwelling units and 50,000 square feet of commercial development on 495± acres adjacent to the Fire District's Existing Fire Station 97, located at 18453 E. Sierra Madre Avenue.

As part of the City's conditions for approving this Project, the City required the developer to enter into an agreement with the Fire District for either payment of mitigation fees or dedication of land for a new fire station. Approval of the attached Mitigation Agreement assures that the Fire District, in return for conveying a seismically impacted site with functionally obsolescent improvements, will receive a larger, topographically superior parcel of land and a newly constructed fire station built to its specifications, with a construction value estimated at \$3.6 million.

Background

Existing Fire Station 97 is a 50-year-old, 2,448 square foot station, which does not meet the Fire District's current facility size requirements. Of concern is the station's location in relation to the Sierra Madre fault. Some studies indicate that the Sierra Madre fault setback zone runs through the northeast corner of the Existing Fire Station 97 property, while other studies show it 60 feet to 300 feet north of the station. Therefore, as the Project was going through the entitlement process with the City of Azusa, the Fire District informed the City of its need to acquire land for a replacement station that was with certainty outside the Sierra Madre fault setback zone. This would improve the Fire District's ability to provide uninterrupted essential fire protection services to the Project and the surrounding community should a significant seismic event occur on the Sierra Madre fault. As a result, Monrovia Nursery Company and the City of Azusa mutually agreed, through their Monrovia Nursery Development Agreement, that either mitigation fees would be paid to the Fire District or land would be dedicated for a fire station.

Negotiations regarding the Monrovia Nursery Project

Negotiations were pursued between Azusa Land Partners, LLC, the Monrovia Nursery Company ("Developer") and the Fire District to implement the City of Azusa's requirements regarding fire protection for the Project. The attached Mitigation Agreement not only addresses the City's requirements, it addresses Fire District concerns regarding the non-availability of Fire District funds to construct a new station and developer concerns that the fire station be constructed in a timely manner.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

The Mitigation Agreement addresses Goal No. 1: *Service Excellence*, Strategy 1, of the County's Strategic Plan, which guides us to *"Implement programs to improve the efficiency, quality and responsiveness of County services to all residents."*

FISCAL IMPACT/FINANCING

The Fire District will incur costs estimated at \$191,000 for installation of communications cabling/antennae and hose towers/racks, which will be available in its 2006-07 operating budget. All other costs will be borne by the developer.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The principal terms and conditions stated in the Mitigation Agreement are as follows:

- Developer will construct a 6,000 square foot fire station facility on a flat terrain .79 acre parcel (see Exhibit D of the Mitigation Agreement).
- All construction, equipment and furnishings will meet the Fire District's specifications and requirements, as well as all Uniform Building Code structural requirements, as soon as the Fire District completes its due diligence of the replacement site.
- The Fire District, or its representative, will inspect the construction work for quality and consistency with architectural and engineering plans.
- The Fire District will install all required communications cabling/antennae and hose towers/racks, and a fuel tank dispenser should the Fire District decide one is needed in the future.
- Replacement Fire Station 97 must be completed prior to the issuance of the 1,001st certificate of occupancy for the Project.
- Upon completion of the construction of Replacement Station 97 and the acceptance of all improvements by the Fire District, developer will convey ownership of Replacement Station 97 to the Fire District.
- Within 60 days of the conveyance of Replacement Station 97 to the Fire District, Existing Fire Station 97 will be conveyed "As Is" to the developer. Existing Fire Station 97 is built on two sloping parcels (APN. 8684 024 903 and APN. 8684 024 904) that combined, total .57 of an acre and are adjacent to the Project. The Fire District may remove any equipment, fixtures, or furnishings from Existing Fire Station 97 within that 60-day period.
- If development of this Project and the developer's adjacent property located in the City of Glendora exceeds 5.7 million square feet of development, the developer has agreed to pay a Mitigation Impact Fee to the Fire District, which is equal to the developer fee in effect in high growth areas of the County for fire station facilities.

This Mitigation Agreement has been reviewed by representatives of the City of Azusa and approved as to form by County Counsel. It has been fully executed by Monrovia Nursery Company and Azusa Land Partners, LLC, and will be effective upon execution by your Board.

ENVIRONMENTAL DOCUMENTATION

The Azusa Land Partners, LLC, is responsible for the preparation of all applicable California Environmental Quality Act documentation required by the City of Azusa to construct a fire station.

IMPACT ON CURRENT SERVICES

Replacement Fire Station 97 will be a larger fire station facility constructed outside the Sierra Madre fault setback zone, which will increase the Fire District's ability to provide essential fire protection services to the Project and the surrounding community.

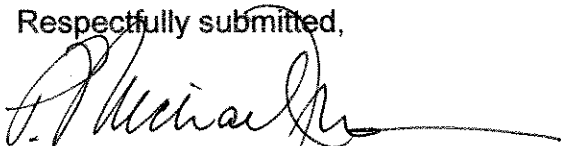

CONCLUSION

Please instruct the Executive Officer, Clerk of the Board to return the following to the Fire District:

- Two (2) copies of the Minute Order and/or this approved letter, as applicable.
- Two (2) executed originals of the Agreement and two (2) copies of the executed Agreement.

The Fire District will return two sets of the original Agreements to the developer.

Respectfully submitted,

P. MICHAEL FREEMAN

AGREEMENT REGARDING FIRE SAFETY MITIGATION

This Agreement Regarding Fire Safety Mitigation ("Agreement") is entered into this ____ day of _____, 2006, by and among the Consolidated Fire Protection District of Los Angeles County ("District"), a public agency, and the Monrovia Nursery Company, a California corporation ("Monrovia"), and Azusa Land Partners, LLC, a Delaware limited liability company ("Owner"). District, on the one hand, and Monrovia and Owner, on the other hand, are individually referred to hereafter as "Party" and collectively as "Parties."

RECITALS

- A. Monrovia is the owner of certain real property (the "Glendora Property"), portions of which are located in the City of Glendora ("Glendora") and in unincorporated areas of the County of Los Angeles (the "County") within Glendora's Sphere of Influence. Exhibit "A" attached hereto and incorporated herein by this reference describes the Glendora Property.
- B. Owner is the owner of certain real property (the "Azusa Property") located in the City of Azusa ("Azusa"), which Owner purchased from Monrovia. Exhibit "B" attached hereto and incorporated herein by this reference describes the Azusa Property.
- C. District is a special district duly formed under the laws of the State of California. District provides fire protection, emergency medical and related services to certain unincorporated and incorporated areas within the County, as well as to the

cities of Azusa and Glendora, including the Azusa Property and the Glendora Property.

- D. Land use entitlements (the “Project Entitlements”) have been approved for the development of up to 1,250 residential dwelling units and up to 50,000 square feet of commercial uses (the “Project”) on the Azusa Property. The Project Entitlements include a Vesting Tentative Tract Map (“VTTM”) and a Development Agreement (“Development Agreement”) between Azusa and Owner, as the successor to Monrovia.
- E. Monrovia utilizes the Glendora Property for nursery operations. However, Monrovia plans to seek land use entitlements for development of the Glendora Property and to ultimately cease its nursery operations.
- F. As part of the Project Entitlements, Azusa prepared an Environmental Impact Report (“EIR”), which was certified by the Azusa City Council in February 2003. Mitigation Measure PS 1 (“MM PS 1”) states: “The applicant shall pay fire development impact fees consistent with the adopted fee schedule. The applicant shall work with the LACFD to dedicate land for a new fire station in-lieu of required development impact fees. Condition No. 28D of the Project Entitlements (“Condition 28D”) requires compliance with MM PS-1.
- G. The Development Agreement, at Section 5.11 (“Section 5.11”), addresses the fire protection service fees for the Project, requiring an agreement with District for the payment or in lieu satisfaction of such fees.

- H. District has adopted and implemented a development impact fee program (“Impact Fee”) for certain portions of its service area (“Program Area”). For areas within its service area but outside of the Program Area, District often relies on the Impact Fee as a benchmark to determine adequate mitigation for potential impacts to public safety. As of the date of approval of the VTTM, District’s Impact Fee was \$0.3716 per square foot.
- I. District currently operates a fire station (“Fire Station 97”) on that certain real property depicted on Exhibit “C” attached hereto and incorporated herein by this reference (the “Existing Fire Station Site”). District desires to acquire other land for a new and larger station in the vicinity of the Existing Fire Station Site that is not within the Sierra Madre Fault setback zone and that meets the requirement of the California Geological Survey Rule 48 “Essential Use Facility”.
- J. The Parties desire to enter into this Agreement to provide for fire safety mitigation for the Project and to fully satisfy MM PS I, Condition 28D and Section 5.11 in lieu of paying the Impact Fee.
- K. In exchange for the conveyance hereunder to District of certain property outside the Sierra Madre Fault setback zone, Monrovia desires to receive from District fee title to the Existing Fire Station Site and a credit against any Impact Fee that would be required for the development of the Glendora Property.

NOW, THEREFORE, in consideration of the mutual promises and covenants set forth herein, Monrovia, Owner and District agree as follows:

1. CONVEYANCE OF REAL PROPERTY BY OWNER. Concurrently with the conveyance described in Section 2 hereof, Owner shall convey to District by Grant Deed in form reasonably acceptable to District, fee simple title to that certain real property consisting of approximately seventy-nine hundredths (0.79) of an acre, referred to as Lot 753 in the Site Plan for the Project, dated May 3, 2005 (the "Site Plan"), as more particularly depicted and delineated on Exhibit "D" attached hereto and incorporated herein by this reference (the "Fire Station Building Site"). No monetary payment shall be made by District for the conveyance of the Fire Station Building Site. Upon completion of the construction of the New Station (as hereafter defined) in satisfaction of Section 3 hereof, District agrees to accept title, ownership, and maintenance of the New Station and the Fire Station Building Site, provided that Owner provides title to the Fire Station Building Site free and clear of all monetary liens, encumbrances, or assessments or any easements not expressly approved by District.
2. CONVEYANCE OF REAL PROPERTY BY DISTRICT. Upon completion of the New Station (as hereinafter defined), District shall convey to Monrovia, by Grant Deed in form reasonably acceptable to Monrovia, fee simple title to the Existing Fire Station Site free and clear of all monetary liens, encumbrances or assessments, at no cost to Monrovia. Within 60 days following the date of conveyance, Monrovia will give the District all necessary access to transfer operations from the Existing Fire Station Site to the New Station, and District is authorized to remove, in its sole discretion, any equipment, fixtures, apparatus or

furnishings at the Existing Fire Station Site. Cost for such removal shall be District's.

3. NEW FIRE STATION. Owner shall cause a new fire station that is six thousand (6,000) square feet in total building size ("New Station") to be designed and constructed, at Owner's expense, on the Fire Station Building Site. Owner is responsible for the preparation of any applicable CEQA documentation required by the City to construct a fire station on the Fire Station Building Site. Owner shall fund the construction of the New Station building shell, all interior improvements and fixtures except as expressly stated in Exhibit "E," and on-site improvements such as paving and landscaping as outlined in the District's Small Station Prototype P2 Program (dated January 2004), as would be suitable for a 6,000 square foot fire station. All construction, interior improvements, fixtures and on-site improvements shall be consistent with the plans and specifications approved by District. District shall provide, install, and fund furnishings, fixtures, and equipment unique to a fire station as stated in Exhibit "E". Owner shall coordinate with District in integrating and providing for the District-provided fixtures and equipment within the Owner's architectural plans. Owner shall provide to District's reasonable satisfaction and at no cost to District utilities and conduit sufficient to service District-provided fixtures and equipment. During construction of the New Station, Owner shall provide District with reasonable access to inspect the construction work for quality control and consistency with the architectural and engineering plans and the Uniform Building Code. Owner will cooperate with the District in scheduling weekly inspections during the

construction phase of the project. District shall provide Owner immediate written notification of any asserted inconsistencies with the architectural and engineering plans and/or the Uniform Building Code. Upon Owner's receipt of such written notification, Owner and District shall meet and confer promptly as to the appropriate means of addressing such items. Owner shall be responsible for correcting any established inconsistencies with the architectural and engineering plans and/or the Uniform Building Code at no cost to District.

4. Within 30 days of the execution of this Agreement, Owner shall provide to DISTRICT copies of a Geotechnical Engineering Evaluation Report, a preliminary title report, and any other related studies/reports that Owner is relying upon in finding that the Fire Station Building Site meets all local, state, and federal laws, specifications, and requirements related to an Essential Use Facility. In addition, at the completion of the pad grading, Owner will provide District a copy of the Phase I Environment Site Assessment Report.
5. DESIGN/BUILD. Owner agrees to contract and pay for architectural and engineering services. Owner and District must mutually approve the architectural and construction drawings/plans. Owner shall bid, hire, finance, and manage the construction of the New Station at Owner's expense. Owner authorizes District to monitor, inspect and enforce construction workmanship for quality assurance. Owner shall hold a minimum of three District construction drawing review meetings at District headquarters for each of the following benchmarks: 1) floor plan and elevations completed; 2) plans are at 50% completion, and 3) plans are at 90% completion (prior to submittal into Plan Check).

6. **ENGINES, TRUCKS, AND APPARATUS.** Owner is not responsible to purchase, or contribute financially to the purchase of, any new equipment, vehicles, or apparatus used by District. Any increase in staff, engines, trucks, or other apparatus used by District at the New Station shall be the sole expense and responsibility of District.
7. **NEW FIRE STATION DESIGN.** The design and layout of the New Station shall meet District's specifications under the Small Station Prototype P2 Program (dated January 2004) as suitable for a 6,000 square foot fire station and the Uniform Building Code structural requirements. At District's written request, subsequent changes to the Small Station Prototype P2 Program (dated January 2004) that are demonstrated by District to affect operational aspects of the New Station shall be incorporated by Owner into the New Station design to the extent reasonably feasible. Upon Owner's receipt of written notice of such subsequent change, Owner and District shall meet and confer promptly to determine the appropriate means to address such matter. District shall review and approve the layout and design of the New Station. The exterior architecture of the New Station shall be complementary to the architectural styles prescribed in the Project Entitlements. Owner shall obtain the Fire Chief of the District's written concurrence and the City's of Azusa's approval on the exterior architecture of the New Station, which concurrence shall not be unreasonably withheld.
8. **TIMING.** Owner shall determine the timing of the construction of the New Station in its reasonable sole discretion, provided that the New Station is complete and conveyed to District at the time that Azusa issues the one thousandth

(1,000th) Certificate of Use and Occupancy for the Project or on the date five (5) years after the date of this Agreement, whichever comes first. Owner may rough grade the Fire Station Building Site at an earlier stage of the Project in conjunction with grading the Azusa Property in the vicinity of the Fire Station Building Site. Owner shall install the standard water, sewer, storm drainage, electric, gas, and telephone utility lines and systems for the New Station pursuant to the Station Site Requirements (Exhibit F), and may perform such work at such time that the utility facilities and systems are constructed to serve the portion of the Project in the vicinity of the Fire Station Building Site.

9. **CONDITION OF EXISTING FIRE STATION SITE.** Monrovia shall review the condition of the Existing Fire Station Site, including the environmental condition, prior to acceptance of the Existing Fire Station Site. District has provided Monrovia with the results of a Phase I Environmental Assessment and District has no further obligation to provide any further environmental assessments of the land and improvements, and Monrovia, at its sole cost, may conduct additional environmental testing and evaluation. Monrovia may, in its sole and absolute discretion, accept or reject the conveyance of the Existing Fire Station Site to Monrovia. Conveyance of the Existing Fire Station Site shall be "as is" with any and all defects and without any representation or warranty as to the condition of the land and improvements. If Monrovia accepts such conveyance, then upon recordation of the Grant Deed, Monrovia shall assume all costs of ownership and maintenance of the Existing Fire Station Site and shall be responsible for the demolition of the existing improvements on the Existing Fire Station Site. Should

Monrovia reject the conveyance of the Existing Fire Station Site, District shall retain ownership free and clear of any entitlements or interest in the Existing Fire Station Site by Monrovia, and the District shall have no further obligation to convey any site or land to Monrovia.

10. ACCESS. Owner shall provide unobstructed all weather, paved access for District over the Azusa Property to and from the Existing Fire Station Site at all times from the commencement of the Project, including during grading and construction of the Project and the New Station, subject to District's reasonable review to confirm that District can perform its services without interruption. However, the District agrees that it is reasonable that for short periods of time (no longer than 24 hours), the pavement could be disrupted, but unobstructed all weather access will be provided at all times.
11. TRAFFIC CONTROLS. The Fire Station Building Site is planned to be located between Sierra Madre Avenue and the new local street currently known as "Street AQ," west of a new roundabout on Sierra Madre Avenue. The location of the Fire Station Building Site provides pass-through access from the New Station to the two streets. The traffic studies prepared for the Project did not identify the need for any additional traffic improvements or controls associated with the New Station. Should District desire additional traffic improvements, traffic controls or signals associated with the New Station, District shall be responsible to obtain at its sole cost all necessary governmental approvals and, if approved, shall be responsible for the cost of design, installation and operation of any such traffic controls and/or improvements.

12. SATISFACTION OF PROJECT CONDITIONS, MITIGATION MEASURES AND DEVELOPMENT AGREEMENT. District acknowledges that implementation of the terms of this Agreement shall fully and completely satisfy all of the conditions of approval, mitigation measures and requirements of District regarding the Project Entitlements associated with fire and emergency services stipulated as Condition 28D, MM PS I and Section 5.11. However, this Agreement does not negate otherwise applicable legal requirements to adhere to municipal, State, or federal codes, requirements, laws or regulations governing building and development standards, such as the Uniform Building Code and any District fire prevention and fire code requirements.
13. ENVIRONMENTAL DOCUMENTATION. If additional or subsequent environmental documentation pursuant to the California Environmental Quality Act (CEQA) is necessary for the Project, District shall provide written correspondence to the lead agency that the implementation of this Agreement shall mitigate any potential effects of the Project on fire protection and emergency medical response to a less than significant level. At such time that Monrovia or its successors seek land use entitlements on the Glendora Property, District shall provide written correspondence to the lead agency that the implementation of this Agreement shall mitigate any potential effects of development of the Glendora Property on fire protection and emergency medical response to a less than significant level; provided, however, that in the event that the total square footage of floor area as indicated in the individual building permits validated by Azusa for the Project on the Azusa Property, together with the total square footage of floor

area as indicated in the individual building permits validated by Glendora for the Glendora Property, exceeds 5,699,677 square feet (the “Fee Credit Cap”), the excess square footage of floor area above the Fee Credit Cap (the “Excess Glendora Square Footage”) shall be mitigated by payment by Monrovia (or its successors) to District of the Impact Fee attributable to such Excess Glendora Square Footage.

14. IMPACT FEE. Implementation of this Agreement shall satisfy the conditions of approval, mitigation measures and requirements of the Project Entitlements associated with fire protection and emergency medical services stipulated as Condition 28D, MM PS 1 and Section 5.11. Implementation of this Agreement shall also satisfy any requirement associated with fire protection and emergency medical services placed on future land use entitlements of the Glendora Property by District through the lead agency through conditions of approval or mitigation measures. Monrovia acknowledges that, while District will provide information concerning the mitigation of fire protection and emergency medical services impacts as provided herein, District cannot adopt or make findings on behalf of lead or responsible agencies in CEQA proceedings. Additionally, this Agreement does not negate otherwise applicable legal requirements to adhere to municipal, State, or federal codes, requirements, laws or regulations governing building and development standards, such as the Uniform Building Code and District fire prevention and fire code requirements.
15. If the development of the Glendora Property results in Excess Glendora Square Footage, Monrovia shall pay an amount equal to the Impact Fee for the Excess

Glendora Square Footage, as hereinafter provided. The Impact Fee shall be fixed at \$0.3716 per square foot until February 15, 2015. Thereafter, the Impact Fee applicable to any portion of the Excess Glendora Square Footage for which a building permit has not been issued on or before February 15, 2015, shall be the then-prevailing Impact Fee adopted by the Board of Supervisors in effect and otherwise applicable upon building permit issuance for such Excess Square Footage.

16. AGREEMENT CONDITIONED ON LAND USE ENTITLEMENTS AND COMMENCEMENT OF CONSTRUCTION. This Agreement entered into by Monrovia, Owner and District shall be conditioned upon the construction of at least one thousand (1,000) residential dwelling units within the Project. Owner shall reach the following milestones during development of the Project to show the District its good-faith effort to construct the New Station consistent with this Agreement.

- a) Rough grade the New Station pad at the time rough grading occurs to the surrounding area of the Project.
- b) Install backbone utilities to the New Station site at the same time backbone utilities are installed to serve residential development adjacent to Street AQ as shown on the Site Plan.
- c) Precise grade the New Station site at the same time precise grading occurs on the residential lots located off of Street AQ.

- d) Complete architectural drawings and engineering plans for the New Station before Azusa issues the five hundredth (500th) building permit.
 - e) Commence construction of the New Station before Azusa issues the seven hundred fiftieth (750th) building permit.
- 17. FINANCING. Owner's financing sources for the New Station shall be selected and arranged in the sole and absolute discretion of Owner. Owner may elect to finance all or a portion of the New Station through a Community Facilities District ("CFD") as approved by Azusa, which CFD may include non-fire station related infrastructure and resources. District agrees to participate in an intergovernmental agreement with Azusa to include the New Station and the Fire Station Building Site as a "project" in a City-sponsored CFD should such intergovernmental agreement be acceptable to both Azusa and District. Owner agrees to indemnify and hold harmless District from any and all damages, claims and/or judgments as a result of District's participation in such an agreement with Azusa.
- 18. SUCCESSORS IN INTEREST. This Agreement shall be binding upon Monrovia, Owner, and District and their respective assigns and/or successors in interest. Owner may assign its interest under this Agreement to a successor master developer under Condition No. 2 of the Project Entitlements after Owner demonstrates to District's satisfaction that Owner's successor has sufficient experience and financial capability to implement this Agreement, whereupon Owner shall automatically be released from this Agreement and shall have no

further obligations or responsibility under this Agreement. Monrovia may assign its interest under this Agreement to a third party at any time without District's consent, whereupon the assignor shall automatically be released from this Agreement and shall have no obligations or responsibility under this Agreement.

19. ENTIRE AGREEMENT. This Agreement contains the final and complete agreement between the Parties with respect to the matters herein addressed and supersedes all previous communications and agreements between them, either oral or written.

20. NOTICES. All notices, demands or other communication (collectively, "Notices") required or allowed by this Agreement shall be in writing and shall be considered given: (i) when delivered in person to the recipient named below; or (ii) two (2) business days after deposit in the United States mail, postage paid, addressed to the recipient named below. All Notices shall be addressed as follows:

Either Party may, by Notice given at any time, require subsequent Notices to be given to another person or entity, whether a Party or an officer or representative of a Party, or to a different address, or both. Notices given before actual receipt of Notice of change shall not be invalidated by the change.

21. GOVERNING LAW. This Agreement and its provisions shall in all respects be interpreted, construed, enforced and governed by and under the laws of the State of California.
22. CONSENT TO JURISDICTION, VENUE AND SERVICE. Any action or proceeding brought respecting this Agreement shall be instituted and maintained in the appropriate court in the County of Los Angeles, California. Each Party hereby irrevocably consents to the personal jurisdiction of the court. Service of process may be made in any manner provided by law.
23. MODIFICATION. This Agreement may be modified only by another written instrument duly authorized and executed by District, Owner and Monrovia.
24. DEFAULT AND DEFAULT NOTICE: In the event that any Party fails to perform any obligation hereunder or breaches any provision of this Agreement, the non-defaulting Party shall deliver Notice specifying the nature of such alleged

breach and, in the event that the Party receiving Notice cures such alleged breach within thirty (30) days thereafter or, if such alleged breach cannot be cured within such thirty (30)-day period, commences to cure such alleged breach and diligently prosecutes such cure to completion, no default shall be deemed to occur. In the event of an uncured default of a material term of this Agreement, the non-defaulting Party may pursue any remedy at law or in equity, subject to Section 25 hereof.

25. DISPUTE RESOLUTION: The Parties agree to act in good faith and in fair dealing to resolve any dispute or claim arising between the Parties out of this Agreement before resorting to mediation. The Parties agree to mediate any dispute or claim arising between the Parties out of this Agreement before resorting to arbitration or court action. The mediator shall be conversant with fire station construction. The mediation fees shall be divided equally between the Parties. Mediation does not waive any Party's rights to pursue a dispute in the appropriate court in the County of Los Angeles, California.

26. SPECIFIC PERFORMANCE.

(a) By Monrovia. As to Monrovia's right to the conveyance of the Existing Fire Station Site pursuant to Section 2 above, the Parties acknowledge that money damages and remedies at law generally are inadequate, and specific performance and other non-monetary relief are particularly appropriate remedies for the enforcement of this Agreement against District and should be available to Monrovia due to the unique nature of the Existing Fire Station Site, including its

proximity to the Glendora Property and the particular benefits to Monrovia of the consolidated ownership thereof. It is not possible to determine the sum of money and to evaluate the damages which would adequately compensate Monrovia for District's failure to carry out its obligations under Section 2 above. For the above reasons, the Parties agree and acknowledge that specific performance rather than damages shall be the preferred remedy in the event of District's failure to carry out its obligations under Section 2 above.

(b) By District. As to District's right to the conveyance of the Fire Station Site pursuant to Section 1 above, the Parties acknowledge that money damages and remedies at law generally are inadequate, and specific performance and other non-monetary relief are particularly appropriate remedies for the enforcement of this Agreement against Owner and should be available to District due to the unique nature of the Fire Station Site, including its ideal location within the District's jurisdiction. It is not possible to determine the sum of money and to evaluate the damages which would adequately compensate District for Owner's failure to carry out its obligations under Section 1 above. For the above reasons, the Parties agree and acknowledge that specific performance rather than damages shall be the preferred remedy in the event of Owner's failure to carry out its obligations under Section 1 above.

27. SEVERABILITY. If any term, provision, covenant or condition of this Agreement shall be determined invalid, void or unenforceable, the remainder of this Agreement shall not be affected thereby to the extent such remaining provisions are not rendered impractical to perform taking into consideration the

purposes of this Agreement. The foregoing notwithstanding, in the event that a provision is determined to be invalid, void or unenforceable which is an essential element of this Agreement to either Party, at such Party's option upon delivery of Notice to the other Party, the Parties shall meet and confer in good faith in an attempt to modify the Agreement to address such matter.

28. **RULES OF CONSTRUCTION.** The language in all parts of this Agreement shall in all cases be construed as a whole according to its fair meaning, and not strictly for or against, District, Owner or Monrovia. Section headings in this Agreement are for convenience only and are not to be considered as part of this Agreement or in any way limiting or amplifying the provisions hereof. All provisions and any variations thereof shall be deemed to refer to the masculine, feminine, neuter, singular or plural, as the identification of the person or persons, firm or firms, corporation or corporations may require. This Agreement is the product of mutual negotiation and drafting efforts. Accordingly, the judicial rule of construction that ambiguities in a document are to be construed against the drafter of that document shall have no application to extrinsic evidence not directly in conflict with the express terms hereof to ascertain and give effect to the intent of the Parties to this Agreement.
29. **EXECUTION.** This Agreement may be executed in one or more counterparts, each of which shall be an original and all such counterparts together shall constitute the entire agreement of the Parties hereto.

IN WITNESS WHEREOF, Owner, Monrovia and District have executed this Agreement

COUNTY OF LOS ANGELES FIRE DEPARTMENT "FIRE STATION SITE REQUIREMENTS"

1. Grading of the FIRE STATION SITE must meet the following requirements: The pad shall be graded to +/- 0.1 and tops and toes of slopes to +/- 0.3. The site is to be graded in relation to the street or streets which front the site such that the emergency vehicle egress driveway can be constructed with a maximum 2% slope and the return driveway can be constructed with a maximum 5% slope. The above driveways begin at the fronting public street and become level at an imaginary 40-foot setback.
2. A two-inch diameter domestic water line installed to a DISTRICT approved meter location with a jumper and meter box. Point of connection shall extend into the FIRE STATION SITE a minimum of 5'0" from Back of Curb (BOC). OWNER will obtain and provide the DISTRICT with a Will Serve letter from the water purveyor.
3. A one-inch irrigation water line (reclaimed if available) installed to a DISTRICT approved meter location with a jumper and meter box. Point of connection shall extend into the FIRE STATION SITE a minimum of 5'0" from the BOC. OWNER will obtain and provide the DISTRICT with a Will Serve letter from the water purveyor.
4. A six-inch diameter fire sprinkler service line installed to a DISTRICT approved location. Point of connection shall extend into the FIRE STATION SITE a minimum of 5'0" from the BOC, with a shut-off valve located within a public street.
5. A sewer lateral (fixture count to be provided by the DISTRICT) installed to a DISTRICT approved location. Point of connection shall extend into the FIRE STATION SITE a minimum of 5'0" from the BOC. OWNER will obtain and provide the DISTRICT with a Will Serve letter from the permitting agency.
6. A storm drain connection (sized to accommodate both onsite and offsite drainage) installed to a DISTRICT approved location. The invert of the storm drain pipe must be at an elevation that allows for collection of all surface flows and piped drainage systems. Point of connection shall extend into the FIRE STATION SITE a minimum of 5'0" behind the BOC.
7. Electric (loading to be provided by the DISTRICT), telephone (number of pairs to be provided by the DISTRICT), television cable, fiber optics (if available) and gas connections stubbed to DISTRICT approved locations. Points of connections shall extend into the FIRE STATION SITE a minimum of 5'0" from the BOC.
8. All offsite street improvements adjacent to the FIRE STATION SITE which at a minimum shall include curbs, gutters, sidewalks, driveway approaches (maximum of 3), traffic signs, street lights and median breaks with turn lanes at both the emergency vehicle egress driveway and the emergency vehicle ingress driveway.
9. The Completion of a Phase I Site Assessment and, if warranted, a Phase II Site Assessment, and removal or remediation of any hazardous materials located in, upon, or on the FIRE STATION SITE, as required by all applicable Federal, State and local laws (to be provided at the completion of all required site improvements).
10. Proof of full compliance with the "California Environmental Quality Act" for the development and operational impacts of a first responder fire station.

11. Remediation of any defects of the property to the satisfaction of the DISTRICT.
12. Any other requirements as reasonably determined by the DISTRICT that are necessary before construction of a fire station can begin on the FIRE STATION SITE.
13. The FIRE STATION SITE shall be free of any soils and geological hazards and must be located outside of the Los Angeles County 50-year capital flood zone. The soils and geology reports must include language that states that the site has met the requirements of the California Geological Survey (CGS) – Note 48 “Checklist for the Review of Engineering Geology and Seismology Reports for California Public Schools, Hospitals, and essential Services Buildings”.
14. The FIRE STATION SITE shall be free of easements, except as expressly approved by the DISTRICT. The developer must provide the DISTRICT with a preliminary title report for the FIRE STATION SITE.
